

## UNIVERSE OF LIGHT

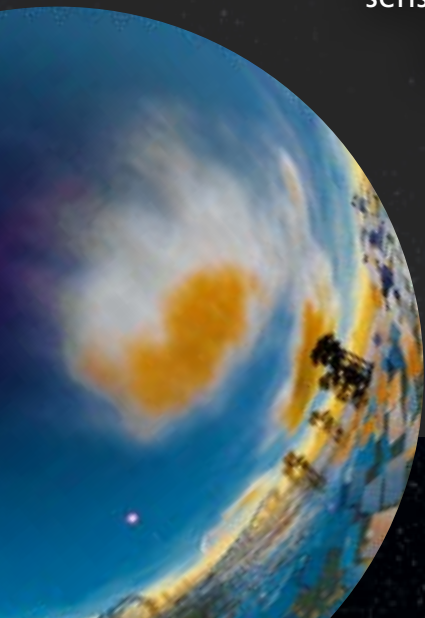

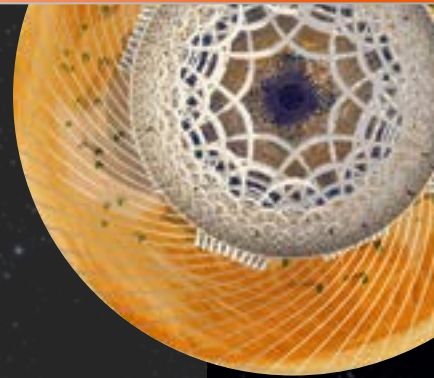

The audiovisual 360° immersive experience

360° Productions from Planetarium Hamburg for your dome venue

### STATE OF THE ART FULLDOME MUSIC SHOW

»LICHTMOND Universe of Light – The 360° Immersive Experience« includes the best of Lichtmond's audio-visual poetry, exclusively translated into the fulldome format featuring Alan Parsons, I Muvrini as guest artists and a song which has been written in collaboration with Boy George. Beautiful sensitive love poems, haunting ambient pop & chillout melodies embedded in intoxicative layer of sound and captivating 3D animation imagery: That's the magical world of LICHTMOND, and their attainment is to abduct the audience to an enchanted cosmos. It's like diving into an ocean of electronic sounds, fascinating voices and 3D imagery. A truly immersive experience for all senses, brought to life by love poems that correlate with the resonance of music, taking the audience on a journey far away from daily stress into a magic world of its own.

**>> First fully licensed music show for  
worldwide exploitation <<**
